

# FREAKATRONIC

## **SPONSOR AGREES TO PROVIDE ALL OF THE FOLLOWING**

A presenter or representative should be available when the group arrives to make sure all the arrangements are in.

## **HOSPITALITY**

### DRESSING ROOM/BACKSTAGE

A back stage dressing room [with a mirror, if possible], for costume changes, must be provided.  
The backstageroom has to be safe from thievery.  
Just band(s) and warranted people may have access to the backstage room.

### CATERING

Bottled water [backstage & on stage] and some alcoholic & non-alcoholic beverages.

5 Mini Milk Ice Lollies [if possible].

## **TECHNICAL REQUIREMENTS**

### Requirement:

- stage mixer [a minimum of 7 channels, 9 channels at best]
- A sound technician to operate sound system [during the show]
- All necessary cabling [Freakatronik has the necessary cabling but depending on the location it can be too short]
- 2 microphone stands
- A video projector and a screen
- Stroboscope
- Fog machine [if possible]
- D.I. Boxes - see input list.
- A small table for the pc

STAGE

The presenter has to inform the band about the size of the stage.

Stage should be solidly constructed.

It should be free of any holes.

SOUNDCHECK

Sound check should begin not later than one hour before the doors open.

Presenter shall not open house until technical set-up and sound check has been completed.

FOH:

Minimum 7 CH-Input MIXER  
7-9 x line [stereo or mono]  
2 x xlr [mic]

INPUT LIST

MIXER

CHANNEL	INSTRUMENT
1	Soundcard [line left]
2	Soundcard [line right]
3	Synth. [line left] MICRO KORG
4	Synth. [line right] MICRO KORG
5	Vox 1
6	Vox 2
7.	Kaoss Pad 3 [line left]
8.	Kaoss Pad 3 [line right]
